

Evangelism Resources

At the 2008 SDB General Conference, the Ministerial Interest Committee noted:
“The committee acknowledged a need for evangelism training for those who are preparing for pastoral service, and we suggest that if it is feasible, this training be incorporated into the Summer Institute courses.”

The Council on Ministry considered this suggestion and has concluded that incorporating evangelism training into any of the three Summer Institute courses is not feasible; however, the Council does agree that evangelism training is important for those preparing for pastoral service, as it is for those currently in pastoral service and all believers.

Listed below are training and tools for evangelism which are already in place. The Council on Ministry would encourage any student or pastor who does not have training in evangelism to attend such training. Pastors can seek aid beyond that which the local church can provide for Continuing Education. Information is at <http://www.sdbministry.org/contedsemguide.pdf>
